- In Souvenirs, use "**+ Add Category**" to start a photo folder for a place or theme (e.g. "Eiffel Tower", "Garden").

Good to Know

- Photos and additions you make are saved on **your own phone/browser only** — they won't automatically appear on someone else's phone.
- To make a photo visible to **everyone** permanently, send it to the site owner to add it to the shared page.
- Souvenirs also has a "Permanent Souvenir Photos" area — those ARE shared with everyone once added to the website.
